May 2, 1866. MRS REBECCA HOWARD

Mr HILSTON I am glad to see the gentleman from Yamhill making his record He is making a fine record—running after every report and rumor He comes here and every one he hears a report from some selfish and vindictive motive—

Mr PALMER I call the gentleman to order He has no right to impugn my motives as selfish and sordid or otherwise

Mr HILSTON I suppose we came here to attend to the interests of the State instead of to chase irresponsible reports

Mr DOLPH I am willing to investigate this matter—am willing to investigate any matter that Gentlemen were not afraid to act in all such matters somewhat as a judicial tribunal not to decide upon run ors but upon the facts and the law applicable to this particular case. We are to decide under oath I cannot see why reference need be made to rumor or precedents The Senate is not responsible for what may have been done or tolerated by any previous body If the Senator has ceased to be an inhabitant of the district or which he was elected he has clearly also ceased to be a Senator There seems to be a difference of opinion between his friends and himself and his friends The Senator denies the report etc the resolution mentions it practically admits it, and undertakes to justify his sitting here The committee contemplated by the resolution will find and report the facts and the Senate will then decide upon the facts and the law as it may appear

To copy in possession of Mr Whitaker was read by the Clerk and found to be exactly like the one previously read

Mr WHITEAKER S motion prevailed—30 ayes to 15 nays

Mr NICKLIN moved to adjourn till 10 o'clock A M to-morrow Carried—33 ayes to 17 nays.

Presiding Officer of the Oregon Legislature

We take the following from the Oregon correspondence of the *Bulletin*

PRESIDENT OF THE SENATE

The Legislature Assembly convene to-day at Salem By a despatch from there, dated 12 15 A M, I learn that both Houses have organized by the election of Col Tom Cornelius, President of the Senate, and Frank A Chenoweth, Speaker of the House, both elected on the Union ticket Col Cornelius is an old resident of Oregon, but originally from Missouri, He was born a big, and naturally enough, upon the demise of that party, gave his allegiance to its political successor—the Republican party Since the year 1860 he has served continuously in the Assembly from the county of Washington, (Tualitin Plains) In 1860 he voted for Baker and Nesmith for the Senate, in 1862, for Pearne, against Harding, and in 1864, for Pearne, against Williams During 1861, he was for a time Colonel of the Oregon Cavalry, but concluding that there were more officers than was necessary he resigned and returned to his farm He is an excellent man, not dommated by fluctuating impulses, but always under the lead of settled convictions He has a strong mind and body, with great force of character, is a staid sunborn, and always disposed to look at the other side of a question before acting, no matter who proposes or objects He is emphatically a son of the soil, and his life has been spent away from towns and thoroughfares, amid the healthful pursuits of the farm, or the suggestive solitude of the woods Altogether he is a favorable specimen of the kind of men which our strictly farming constituencies send to our Assembly—a class of men who, without reference to their politics, are the salt of the earth By means of their integrity of conduct, purity of purpose and love of fair play and economy, they keep up the tone of our public affairs, and preserve the fair fame and credit of the State.

SPEAKER OF THE HOUSE

The Speaker of the House, Mr Chenoweth, came to Oregon in 1849, from Iowa I believe but he is a native, I think, of Ohio He settled on the north of the Columbia, and in the division of the country by the Act of February, 1853, he fell to the lot of Washington Territory In the winter of 1852-3 he served in the lower House of the Oregon Assembly, and although nominally a Democrat, he generally acted with the opposition—then called for political reasons, the People's party He was appointed Judge in Washington Territory by Pierce, and removed by Buchanan He removed to Benton county, Oregon, in, I think, 1863, where he has since lived, and which county he now represents He is a lawyer by profession, but never devoted much of his time to practice As I remember him, he is a handsome man and a graceful, finest speaker, impressive and zealous, but not noted for integrity or force of character As a speaker I should think he would be very acceptable, unless his love of talk should betray him into making speeches from the Speaker's chair—arguing a question instead of deciding it.

SYMPATHY FOR REBELS —Says a Washington dispatch of August 29th

A short time since a young widow, who had lost her husband in the Union army, came to this city from Maryland to seek employment in the Treasury Department. An attempt was made by the Republican delegation from Indiana, aided by J D Defrees and Secretary Harlan, by a direct representation of the case to McCulloch to secure her a situation, but the Secretary informed them that there was no place vacant She was afterwards given employment in the public printing office A couple of weeks before the Philadelphia Convention a rebel widow came on a similar errand from Richmond. A Copperhead member of Congress from New York undertook her case, and a few days ago she was duly installed in the Treasury Department

A Cincinnatian says "Talk about filters! Just cut a quart of Ohio river water, and stand to the sun for five minutes, and you will find the aforesaid coming out at every pore, beautifully filtered, while your stomach becomes converted into a sand bag, and you can hear the gravel rattle as you walk."

The New Candidate and his Qualifications

After a deal of labor and inquiry a new candidate for Senatorial honors has been discovered at the Capital It was no small undertaking to find Mr Ben Simpson and prevail on him to become a candidate For a long time he succeeded in hiding himself from public view but at last the admirers of his abilities invaded the sanctuary of retirement and dragged him forth for the crowd to gaze upon Ben preferred not to appear in public During the first week or ten days of the session his household duties demanded his unceasing attention Ben is domestic in his habits, and courted retirement He had determined to ensconce himself in his castle till the hurly-burly was done But he soon found that certain parties were listed in a conspiracy against his peace Disregarding his private feelings, they were determined to make him a Senator Therefore Ben had nothing for it but to submit and is now understood to be a candidate—though of course a reluctant one—for that high and responsible and undesirable office

Ben has "claims" on the people of Oregon for the position His qualifications are immense For four years he has been an Indian Agent, and may therefore be regarded as a very respectable man, "over and above all his debts liabilities and property exempt from execution" If he is not by this time fit to be a Senator, will some one tell us when he may be expected in reason, to have the requisite qualifications? Does any one object to him on account of the deficiencies of his early education? As if his associations and occupations since his appointment as Indian Agent would not compensate for any little imperfections of this sort We therefore instantly dismiss the idea that Ben is not a suitable man for an United States Senator Away with the thought which some narrow minded people seem to harbor, that the next position in the line of promotion after an Indian Agency, is not a seat in the Senate of the United States

But we have not yet enumerated what Mr Mantalini would call the "demunition total" of his qualifications, or rather his "claims", for the position Readers of the *Statesman* and admirers of Ben's talents will be delighted to hear that he enjoys the honor of being the paternal ancestor of the brilliant young man who presides over the columns of the "conservative" organ at Salem You who are disposed to question Ben's claims to a place in the Senate, read the screaming "leaders" of the *Statesman* and be confounded. The person who writes those "leaders" is Ben's son. Of that son, Ben is the father What honor, therefore, is too great for Ben to receive? What has his country the power to confer upon him that is beyond his desert?

We conclude therefore, that Oregon will be very ungrateful if her Legislature does not elect Ben Simpson to the United States Senate Some may unreasonably object to setting Nesmith aside for Ben's benefit, but all such should remember that as Nesmith and Ben are the Chang and Eng of "conservatism" in Oregon, it makes little difference which is elected Who speaks next for Ben?

But to be more serious, we suggest that Ben Simpson ought to be the Democratic candidate instead of receiving the votes of members who profess to belong to the Union party. Simpson and his class of men support the Administration of Johnson; what more can Democrats do? Simpson is a traitor from the Union party, and so is Johnson, and so are his principal lieutenants whom Democrats now so highly honor. But Simpson cannot be elected by Democratic votes We do not suppose there is a probability of his election by any party, yet Union men who care for their future reputation might better be found voting for Jo Lane than for him He is the central figure in all the disreputable, dirty schemes that have had their birth at the Capital for the last fortnight or more He is the principal manipulator there in the interest of Nesmith—and himself Just now he seems to have a little power or influence, (call it what you will,) but will soon sink into the oblivion that absorbs all such characters as he Few, perhaps, will hereafter envy any man the honor of having it said of him that Ben Simpson once owned him.

They are having more Indian disturbances in Idaho The Boise *Statesman* publishes an extract from a letter dated Ruby City, Sept. 18th, which states that the Indians attacked Jennings' ranch, on Catherine creek, the night before, killing one man, and probably four. A party of fifty men had gone out after them.

We have received the first number of the *Idaho Semi-Weekly Times*, a paper just started at Idaho City by Messrs Shepherd, Vajen and Hathaway The paper presents a creditable appearance Politics, its editor says, will be entirely excluded from its columns

STATE ITEMS

The *Gazette* says the Corvallis College has just opened under favorable auspices About seventy pupils are in attendance, and the number is increasing.

The *Statesman*, speaking of the improvements at Salem, says: To the energy and enterprise of the Willamette Woolen Manufacturing Company this city owes very much for improvements which are alike useful to the community and an ornament to the place. They have now nearly completed a magnificent granary in connection with their mammoth flouring mill The walls of the extensive structure are formed of lumber placed plank upon plank, and firmly secured, intersecting partitions being formed in the same manner When finished it will be capable of containing several hundred thousand bushels of grain We notice, also, that the new wharf is progressing rapidly towards completion It is a splendid affair but rather grandiloquent, we think, for the carrying trade of the Willamette.

The *Sentinel* has an article on the quartz interests of Jackson county from which we extract Early last Spring, Col Drew being in San Francisco, represented to various parties what we had up here in the shape of quartz, and the want of proper machinery to work it, and that in his opinion, and in that of others a first-class mill well built and of the best known pattern, would be a success The result was, Mr Hogan, a practical mill man, and one who has had experience in quartz mining, came up from San Francisco early in the season After looking about for several weeks he came to the conclusion that a mill would do well here Steps were immediately taken to form a mill company which in due time resulted favorably and the "Occidental Quartz Mill Company" was organized This company immediately proceeded to work and after various hinderances, the mill has been placed on the Newport lead, on Jacksonville creek, and is almost ready to commence running, probably steam will be raised on Monday next. A finer piece of machinery we never have seen Everything about the engine and mill is of the most approved patterns and styles The engine is 24-horse power, running five stamps and two concentrators—Hunsperford's Improved Prater Patent Everything about the mill is in tip-top order and everything needed for running is at hand. Water runs into the mill from ditches on the side-hill above, wood will not have to be drawn forty yards, and the quartz will be taken from the mouth of the tunnel to the mill in cars, a distance of about 150 feet.

FROM IDAHO

The following items are clipped from the Idaho City *Times*, of the 18th instant

A letter received from Capt Patterson, written at Taylor's Bridge on Snake river, states that 98 men and 200 horses are with him This bridge is located about 80 miles this side of the locality they contemplate prospecting His states that they had prospected some of the gulches on Snake river and found very flattering prospects.

APPOINTMENT

Judge J May on last Friday received a commission from Gov Ballard to fill the vacancy caused by the resignation of Judge C B Waite as District Attorney for the Second Judicial District of Idaho Territory The Judge was also elected to the same position at the last election, and will no doubt be well installed before the commencement of his regular term.

ESCAPED

Gus Armsdale, who was convicted and sentenced for life at the October term of the District Court, made good his escape from Boise county jail about ten days ago This is Gus a second trip, and from all indications he will make it a success

BIG ROCK PLUME

We are glad to see this enterprise pushed forward Figures could hardly be produced to calculate the gold washed down Moore's Creek within the last three years, the greater proportion of which might have been saved by means of a flume. The parties interested now will undoubtedly complete the undertaking and reap a rich reward

Mining claims on Moore's Creek are changing hands considerably Locators having made a good stake are disposing of their interests and leaving for their homes in the States

MEETING OF THE COMMON COUNCIL.—The regular weekly meeting of the Common Council was held last evening, Mayor Failing in the Chair.

Present—councilmen Casson, Halleck, Lownsdale, McCracken, O'Connor and Zeiber.

Minutes of previous meeting read and approved.

A petition from David Monastes for the use of Second street for building purposes—granted.

A petition asking for various repairs on fire engines—granted.

A petition asking for the establishment of an iron lamp post on "B" street.

A report from Mr. E. E. Walker on river improvement, who reports:

SWAN ISLAND, Sept. 20, 1866.

To the Hon. Committee on Willamette River Improvements—GENTLEMEN:—The following is a report of work performed by the Steam dredger and the snag boat at the mouth of the Willamette river, for the week ending Saturday, Sept. 22d:

Monday 17th—removed 0 snow loads, about 300 cubic yards.

Tuesday, 18th—4 loads; broke hoisting-chain; found some snags, but none but what we could remove with the dredger.

Wednesday, 19th—5 loads, 250 cubic yards; broke the hoisting chain, and were troubled some with snags.

Thursday, 20th—5 loads, 250 cubic yards; broke the hoisting and back chain.

Friday, 21st—4 loads, 200 cubic yards; found one large tree, and were obliged to get the snag boat to remove it.

Saturday, 22d—Partly filled one scow, and broke a hog chain, when I discovered that we had started the crane pin; probably the day before in lifting on the tree before mentioned.

Total amount of work by the dredger, 27 skow loads, or about 1,350 cubic yards, making a channel 250 feet long by 95 feet wide, and 19 feet deep at low water.

Had the hoisting chain is rather light for the work, but it is the largest I could get at Portland; if I go in again, which I intended to have done this fall, I will change it.

Had there been some in the market at the time. We were also delayed some by the snag boat not being able to get away the scows as fast as loaded, as we commenced work at the upper end of the shoals, consequently she has to go the entire length of the slough into the deep water in the Columbia, which is the nearest dumping ground I could find. These scows gave us some trouble by getting partly owing to the adhesive nature of the material, and partly owing to the mud-wells being now and then full of quicksand. They are working better, however. They are also very shortscows—the mistake that the mud had to go, for as we proceed down the slough we are getting nearer the dumping ground. We shall be nearly through, however, I think, before she is able to keep pace with the machine, unless we should have more snags, or should be delayed by snags or other obstacles. I have filled a scow in less than half an hour several times, and can do so easily when not delayed by accidents.

So much boat is at work in the ship channel. The filling is but now—viz:

Monday, 17th—[illegible] four large trees, with numerous limbs and other obstructions.

Tuesday, 18th—Four trees from the channel between Sauvie's and Three Tree Islands.

Wednesday, 19th—Four trees.

Thursday, 20th—Five trees, with limbs, etc.

Friday, 21st—Three trees; one large one in front of the dredger.

Saturday, 22d—Five trees; hauled to the bank for wood. The snag boat is, in my opinion, the most useful machine we have, as without it the dredge could do very little.

We are very much in need of a new boat to run lines and carry hands, and the want of one causes a great deal of delay, as both machines, I learn, however, spoken to Mr. Gray in time to make one, and will be obliged to your committee if you will inquire how soon it will be done, as it is very inconvenient for me to leave the work here.

Monday, 24th—I guarded the ship channel and found in the Middle Ridge place 11 feet at low water and 14 feet at high water, there being 8 feet of tide. The shoal is gradually put over 200 feet across it, and is covered with [illegible], which when removed, will probably deepen it to 15 feet at low water, and I have strong hopes of being able to get rid of the most of them this week."

Report of W. Hoyt upon delinquent list. He reports 1 ton of $1,740-60. Filed.

Report of Peter Potter—ten cords of wood at $3 per cord.

Bill of T. Hoyt for removing dead animal—$2 50; ordered paid.

Report of Hoyt for work at room—$20. Ordered paid.

Report of [illegible] painting dredger—$216 75. Ordered paid.

Report of [illegible] for pipe, bolts and other fixtures—$1,301—warrants ordered.

Report of [illegible] dredging—$2,800 59. Bill referred to committee on Fire and Water—Casey and Lownsdale—and warrant ordered.

Bill of the Reporting Co., placed upon file.

Petition for the expenditure of $100 for [illegible] by fire from Harrington & Street's [illegible]. Read second time, when the rules were suspended and ordinance put [illegible] reading the Chief Engineer to contract for [illegible] hose, read first time and passed.

[illegible]—We are shown a copy of a memorial to His Excellency Andrew Johnson, setting forth the difficulties of Owyhee, their great loss of property, etc. We hope to see the memorial a success, and that a sufficient number of men will be sent into the field to drive out and subdue those marauders. While life and property on the [illegible] are insecure, the entire wealth of the country is so transmissible that little can be done. The object is that all Indians may be quashed and [illegible] conclusion that capitalists may [illegible] life and property in Owyhee. This is all that has kept back the development of many [illegible] that country. We see that [illegible] one of the best districts in the country, is [illegible] from the same cause. The [illegible] in mass meeting on the 10th inst. and chose Mr. [illegible] to proceed to [illegible] to lay before the Executive the interests and wishes of the community, and particularly owing to the adhesive nature of the [illegible] and [illegible] and for the valuable assistance rendered by the public improvements of British Columbia. [illegible] will write, and set forth clearly the wants of the [illegible] loss of life they have sustained since its first [illegible]. The new city has 1,000 souls already and many more. The people of Fraser are [illegible] Indian war. [illegible] and a new location would be given [illegible] river trade. We are glad to see the interest Mr. Woods has taken in this matter, also the [illegible] Mr. Lownsdale has [illegible] to Maj. Gen. Halleck.

Common Council—We learn that Mr. Wm. F. Hill of [illegible] was but three miles from the ferry [illegible] a gunshot of Indians were from the [illegible] on the right shoulder—the ball [illegible] entirely [illegible] then fired upon him with arrows [illegible] him—this time in the left shoulder. [illegible] with a Henry rifle and finding [illegible] wounded, he concluded to abandon [illegible] and, [illegible] leaving horses, saddle, and traps [illegible]. Mr. Hill's wounds, though severe, [illegible]. After the fight, upon the [illegible] the bodies of two Indians [illegible] exclusively showed that "poor Lo" [illegible] his own way.

[illegible]—The attorneys of this city met at the Court [illegible] at 4 o'clock P. M., Judge Wait [illegible] Esq., was chosen to act as Secretary, and [illegible] a committee of six, Hon. E. [illegible] Esq., to draft resolutions concerning the [illegible] on the first day of the next term of the [illegible]. Appropriate remarks were made by [illegible] Page and Goltra, each and all [illegible] the ability of their departed brother [illegible] to his many public and private virtues.

[illegible]—The sudden death of Hon. Amory [illegible] at his residence at twenty-five minutes past 4 o'clock yesterday morning. Mr. Holbrook [illegible] an old resident among us, having resided in the [illegible] since. The funeral will take place at 2 o'clock to-day, from his residence on Sixth street, near the building of the last at Court House notoriety.

[illegible]—The bark *A. A. Eldridge* cleared from [illegible] on the 8th inst., with a full cargo, and is expected here soon. The *Jane A. Falkinburg* has gone into [illegible] to load and will be expected to sail about the 15th inst.

[illegible]—We see numbers of teams are arriving in this city, loaded with bacon from the Umpqua valley. Thirty [illegible] passed down on the road for Salem, and this is but a beginning.

[illegible]—The steamer *Senator* brought last evening 2 bales of woolen goods, 2 pkgs shirts, 2 pkgs [illegible], 1 bale hats, 7 boxes eggs, 22 sks bacon, 22 bbl 50's [illegible], 1 roll lead pipe, 1 bench mill and 400 qr sacks [illegible].

[illegible]—On the first page of to-day's paper will be found a detailed account of the proceedings of the Legislature, and on the fourth page an interesting letter from [illegible].

Dr. A. J. Hornsby has returned to this city, and has [illegible] permanently at No. 62 First Street, opposite Oro Fino Hall. See his card elsewhere.

[illegible]—Wells, Fargo & Co.'s messenger last evening brought down from the upper country, $75,000 in treasure.

[illegible]—Go and see the premium boot maker, Nicholas Lemmon. See advertisement of Lumsden & Logue.

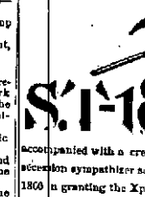
EXPLAINED.

A "WEB-FOOT"
HAS BEEN TO NEW YORK,

and reports as follows:

In the car, steamboat, saloon, parlor, at dinner, in the street, everywhere did I hear some story with relation to or an inquiry as to the meaning of those mythical words, posted, printed and advertised wherever I went—



accompanied with a crescent and a shepherd's hook. A secession sympathizer said it was: "Satan Triumphed in 1860 in granting the Xpectations of abolitionists;" while a Republican said it was: "Stump-Tail Democrats of 1860 going to Texas;" another, "To the State Taxes of 1860 add ten (X) dollars;" another, that they were the watchwords of some secret society, like, "Sons of Tecumchis are 1860 Strong," or "Seward's Tricksters of 1860 Used up," &c., &c. Well, your correspondent was ill—had been ill for a long time—in fact, his late suppers had given him a horrid dyspepsia. He read the advertisements, and of course bought a bottle of Plantation Bitters; the Bitters cured him, and on the bottle appeared those same cabalistic letters: S. T.—1860.—X. I traveled straight for 26 Park Row, introduced myself to the celebrated Dr. Drake, and was shown the elephant—tanks, S. T. and all—and a great institution it is. A six story building in Liberty street, from cellar to garret, is occupied as a laboratory for producing this single medicine. Some forty persons are employed; several vats, holding six thousand gallons each, are filled with roots, herbs, and material, and then soaked in water, and the expression preserved in pure St. Croix Rum. I here saw the bags, boxes and Calisaya Bark, Wintergreen, and other material—and the original St. Croix Rum puncheons bearing the Custom-house brand. It seemed that medicine could here be turned out to supply a world of invalids—yet these gentlemen are unable to fill their orders for Plantation Bitters alone. I was shown many certificates of extraordinary cures effected by these Bitters. The proprietors will pay Uncle Sam near fifty thousand dollars for stamps this year.

RINGBOLT.

We are happy to reproduce the above letter, and add that any ordinary case of Dyspepsia, Liver Complaint, Nervous Affection, Sour Stomach, Loss of Appetite, Dizziness, Sinking Weakness, Mental Despondency, &c., can be cured by the Plantation Bitters. The original quality and high character of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

Dr. Hostetter's Stomach Bitters should be in the possession of everybody in the mining regions. As a preventive of various dangerous diseases to which the gold seeker is liable, it has no superior. While it is quite palatable even as a beverage, it is speedy and powerful in its effects upon the system. In all cases of Diarrhœa, Dysentery, and the prevailing fevers consequent upon exposure, the Bitters will be found invaluable as a corrective. No man should enter upon the exposed life of a miner without being provided with Hostetter's preventive of stomach disease, nor should any of those who are now engaged in the occupation, fail to have recourse to the Bitters. Sold by all druggists and dealers everywhere. sep20 HODGE & CALEF, 97 Front St.

DRAKE'S PLANTATION BITTERS

Have been of great service in making people healthy, and keeping them so. They should be found in every household.

They give tone to the Stomach, vigor to the body, and remove dark doubts and unhappy feelings from the mind. They relieve pain and fortify the whole system against the attacks of disease.

There is nothing better to take "for the Stomach's sake" than the PLANTATION BITTERS.

They cure Dyspepsia, Heartburn, Indigestion, Drowsiness, Headache, Pain in the Side, Liver Complaint, and Rheumatic Pains with magical power.

A good effect is felt at once upon making the first trial. No change of diet is necessary. Eat the best you can get and all you want. Follow our directions and you will soon feel

WELL, STRONG AND HEARTY.

A great many side bits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhœa, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.
They are the best bitters in the world. They make the weak strong, and are exhausted nature's great restorer. The Recipe and full Circular are around each bottle. Clergymen, Merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find *immediate* and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel-plate side label.

Beware of refilled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

Mustang Liniment.
OVER A MILLION DOLLARS SAVED!
Gentlemen:—"I had a negro man worth $1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."
J. L. DOWNING.
Montgomery, Ala., June 17, 1859.
"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, &c., on Horses or Cattle. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic." J. W. HEWLET,
Foreman American, Wells, Fargo's and Harnden's Express.
"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment. Gloucester, Mass., Aug. 1, 1865. ED. SEELY."
It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plate engraving, bearing U. S. Stamp of DEMAS BARNES & Co. over the top.
An effort has been made to counterfeit it with a cheap stone-plate label. *Look closely!*

Lyon's Katharion.
It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.
This is just what Lyon's Katharion will do. It is pretty—is cheap—durable. It is literally sold by the carload, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.
E. THOMAS LYON, Chemist, N. Y.

Lyon's Extract Ginger.
LYON'S EXTRACT OF PURE JAMAICA GINGER.—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make a cheap and reliable article for culinary purposes. Sold everywhere at 50 cents per bottle. Ask for "LYON'S" PURE EXTRACT. Take no other.
CAUTION.—See that the private U. S. Stamp of Demas, Barnes & Co. is over cork of each bottle. None other is genuine.

Lyon's Flea Powder.
DEATH TO FLEAS.—It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bed-bugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals. The genuine has the signature of E. LYON, and the private stamp of DEMAS, BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

OUR WASHINGTON LETTER

FROM OUR REGULAR CORRESPONDENT

WASHINGTON D C Aug. 28 1866

The President starts to-day on his Chicago trip and the political newspapers are expecting any number of speeches to print and the most of them doubtless will come from the President There is a great deal of curiosity to see whether he will violate taste and decency by making use of his trip to advance his policy As he is invited by sundry Republican cities to visit them in honor of his high office one would suppose that he would have the good sense not to offend them by gross comparisons between himself an Congress. Seward goes along of course I am told that one reason why he goes is that he feels the necessity of keeping close watch upon his Chief Andy Johnson is such a coarse violent man that there is no telling what indiscretion he may commit He abuses Congress as a sort of recreation In his last speech, as you know he intimated that Congress has no Constitutional existence The next thing he will denounce the Supreme Court In short no institution is safe from the bold attacks of this coarse egotist No man knows him better than Mr Seward yet he pours forth the use of falsehoods (I cannot stop to soften the word) on this subject He tells Radicals that Mr Johnson is one of the purest men that ever lived I was amused the other day in looking over Carpenter's Six Months in the White House' with the subjoined paragraph upon Mr Lincoln's character

Dr Stone, his family physician came in one day to see my studies sitting in front of that of the President, with whom he did not sympathize politically he remarked with much feeling It is the province of a physician to probe deeply the interior lives of men and I affirm that Mr Lincoln is the purest hearted man with whom I ever came in contact" Secretary Seward with the subjoined paragraph upon Mr Lincoln's character

I refer to Seward's testimony The idea of quoting *Mr Seward's* opinion of Mr Lincoln! As everybody living in Washington knows he professes to regard Andy Johnson as one of the purest patriots that ever lived He told a prominent politician the other day that Mr Johnson was one of the noblest men he ever knew, and that *his depth of feeling* surpassed that of Mr Lincoln and this when everyman in Washington *knows* that the President keeps company with Copperhead rowdies The man he selects for his most intimate companionship are fourth rate men Why is this if he is so free and noble a man?

The Philadelphia movement has made a stir among some of our leading clergymen At a Johnson meeting in New Haven, Senator Dixon quoted Rev A Bacon and Henry Ward Beecher as being in favor of the new movement This brings Bacon out in the *Independent*, not exactly in denial of the charge, but still in a way to show that he is ashamed of being thought a Johnson man He has been acting a queer part lately but he protests against Senator Dixon's statement in the following style

If the new party is to be simply a new combination of old politicians—men whose life long business has been party politics—office holders and other adherents of President Johnson from the Republican party joining hands with their "life long opponents," of Wall, New York and elsewhere have we not the right to denounce the thing though names are vastly obnoxious to popular indignation or contempt may be judiciously kept in the background, and though the public favor may be conciliated by attractive professions of principles, and by the boasted splendor of brilliant dwelling together in unity after life-long enmity the descent of that new organization, from the high level of a party bound together by disinterested patriotism to the level of a party knit together by aspirations for office, and looking out for its own interests as the main thing, will be more rapid than the descent of an aerolite from its habitation when he loosens his hold without a *parachute*. In other words, that new party will begin where better parties are so prone to end from its beginning it will be what other parties have become in the degeneracy—a sort of joint stock company to which the individuals contribute—some their money others their influence others their time and labor—in the expectation of receiving ample dividend on their investments when the distribution of the spoils shall be made to the victors according to established usage.

For such reasons as these, I must be allowed to disclaim very earnestly, the associations with which Mr. Dixon seems to connect me.

A series of articles will follow this in the *Independent*, and those who have followed Dr Bacon's course in past years know that when he begins to write a series of articles it is impossible to tell where he will end

Henry Ward Beecher keeps silence meantime from the fact that he was once friendly with Mr Johnson The Johnson men argue that he is now with them. I am assured by some of Mr Beecher's most intimate friends that this is not so, and that he is sorely grieved by the conduct of the President, and that all his sympathies are with the Radicals, so far as the freedmen are concerned Beecher is certainly now and when he came down to Washington last fall he was completely taken in with the President's fair words In fact the President talked so very fair to him that it was impossible all the winter to shake the confidence of the celebrated Brooklyn preacher in him The speech on the 22d of February was a bolt out of the sky and Beecher trembled with the shock He is an honest man and could not for a moment defend such coarseness—such downright wicked ness. I should, say I Ever since (as I learn) Beecher has been thinking less of the President, and of late has been talking about making his views public He has his temptations the other way, however, and even Beecher has his weak side

The Boston people are talking of running Wendell Phillips for Congress in the Third District Mr Rice, who is a member in the present Congress from that district, declines to run It would be a treat to hear Phillips on the floor of Congress in reply to a rebel member One of the conservative Republican dailies of Boston—the *Traveller*—uses the following language in reference to the proposition

The question of a can — is therefore properly before the Third District. Many gentlemen of ability reside within its limits, men, who in ordinary times would fitly represent their constituents and the Commonwealth But among them all one stands forth their unquestioned equal in position, culture, and intellectual ability equally unquestioned superior in practical, common sense political sagacity, and who above all these considerations the most distinctly and directly represents the crisis and the relation of his city to its duties of any man in the Commonwealth or the country Willful, therefore nothing should or need be said in disparagement of the other eminent men of this district, every person who discerns the greatness of the questions before the nation, sees instantly the fitness of Wendell Phillips as a representative of these ideas in the National Legislature

If nominated, I predict that Mr. Phillips will be elected, though the district is a close one. Mr Rice has carried it two or three times, simply through his personal popularity, but extreme as Phillips is he will call out a tremendous vote [Phillips declines the nomination —Ed. OREGONIAN]

A very large number of the Republican members of the present Congress will be re-nominated or have been already This comes of their manliness as exhibited in their standing up against all the power of the administration Mr Seward predicts that half the New York Republican districts will go for the Johnson candidates, but nobody is alarmed Did he not predict that the war would end in ninety days? And did he not repeat the prediction more than once? He is a blunderhead at the business of prediction. It is certain that Mr Seward will be *terribly* disappointed if the 40th Congress (counting in the Southern members) has a clean majority of Republicans So will the President This pair of brothers (scholar and white trash—Beauty and the Beast) will take a defeat to heart and may resort to very harsh measures, but all the talk about 'revolution" is bosh, I think The people will decide this question in a way that will rebuke the President. If they do not, Congress will accept the verdict There will not be another revolution—not till our debt is cancelled,

The publication of the correspondence between the President and Gen Sheridan upon the New Orleans massacre creates much talk and no little excitement here and indeed, all over the country It was not wise to publish at just before the President started out on his trip, for all honor able men are indignant at his conduct

Some radicals will be disappointed with a part of the correspondence but all rebels who know Sheridan, are aware that he never had much sympathy with the radical Republicans years ago, and he used to be a very good friend of McClellan But he is a most zealous friend of the Union and hates treason and the rebels The fact that he condemns some of the radical men in New Orleans as foolish and mischievous, only adds to the force of his condemnation of the Mayor and his accomplices He boldly charges them with *murder* and this charge is believed to be just by the great mass of Northern loyalists By our leading men the position of the President in this correspondence is regarded as exceedingly unfortunate His sympathy with Monroe and his band of cut throats is perfectly apparent, and no after talk of justice will save him from the condemnation of all just men

There is talk of the removal of Mr Stanton to day but if he goes out it will be voluntar ly—that is it will *ostensibly* be so But he knows that the President wants his place to give to some body who is not hated by the Copperheads and the rebels Mr Stanton s position is a sad one It would have been far better for him if he had resigned when Dennison did as he will have to give up at last The President and Mr Seward are determined to go all lengths in building up the new party Mr Seward said to Major Addison of Georgetown the other day "We must take care of our *friends*, and we *shall* do so! Everybody will understand at once what he means

He is for turning every Rad cal out of office, and he will support the Philadelphia movement This is probably the best excuse for they by this time must fully understand the character of the President and Mr Seward Heads begin to fall on the Pacific side I see on the 1st one will come off in the course of the coming month

The Beginning of the End

The commencement symptoms of the great political victory about to be gained by the Union party in the Atlantic States are beginning to be apparent The gage of battle between the President and Congress was fairly thrown and as fairly accepted The hopes of success by the new party are rapidly disappearing under the increased Union majorities in the States where elections have been held The almost inexplicable extent of Democratic defection and Soward by the great Union masses is more than a significant indication with the all conservative scorn of the people the overwhelming majorities piled up in favor of Congress must result in those sorry political ruins—Johnson and Seward—that they are about to reap the full fruition of their perfidy For their consignment to political and moral obloquy they may thank themselves They sowed the wind, and will surely reap the whirlwind They counted the rightful verdict of the people now being declared upon them and must abide the judgment They may thank themselves for the increased sectional bitterness engendered by their false administration of justice, and their shameless abandonment of the cause of freedom They themselves have precipitated a renewal of the conflict of opinion and have forced men who desired to be conservative to choose between radicalism in behalf of patriotism and progress and radicalism against them in behalf of treason and anarchy

By forcing or attempting to force together antagonisms that time alone could have reconciled they have intensified and concentrated the sectional prejudices that are a bar to harmony and Union By delaying the justice of the people dignifying the highest crime known to the Constitution, they have resuscitated the devilish passions always strengthened and engendered by slavery and annulled the will of the people who pronounced the war to a successful issue Now with unparalelled effrontery they come before the people backed with the full power of Executive patronage and ask to be sustained They have hardly had an indication of the final irrevocable verdict. Connecticut Vermont Colorado Oregon and Maine have given their decision and it is only a forerunner of the verdict to be rendered by the people of every loyal State at the fall elections They have heard the popular voice swelling in condemnation of the people s betrayers from the Northeastern extremity of the Republic to the far Pacific, and begin to realize that it is no spasmodic utterance but evidence of a fixed, determined purpose that the genius of freedom and justice shall rule republican America The end is near But two short months shall elapse ere he who gained a little cheap notoriety by denunciations of a personal enemy in the Senate Chamber and he who juggled himself into the favor of the people by watching the current of events will be damned forever by those who gave them their proud positions Let the end come —*Oregon Sentinel*

SILVER MOUNTAIN —This is the name given a discovery made on the "th and has given evidence of being a second Poorman It is situated about one-half mile north-east of Silver and so far as opened has a north and south course The discovery party includes L Heudery, R Trumble and R J, T and W Graham They have spent over four months in faithful searching for the ledge They were induced to do so from having found pure silver "float," also, could pan out of the gulches below the genuine lumps of bullion They had minutely prospected the small gulches on the mountain until nothing could be found when they commenced running cuts into the mountain, and in this way struck the ledge, and have already found several lumps of nearly unadulterated metal. The largest piece weighs nearly a pound, and the smaller ones from a pennyweight to two ounces

The discovery became known on Saturday morning, and the mountain side presented a very lively appearance during the day, many extensions were taken, and one enthusiastic individual stayed by his stake all night and came in Sunday morning believing his claim and fortune safe We made it a visit Thursday, of this week, but the proprietors are preparing a foundation for a house right over the discovery and nothing of the ledge could be seen, as it was covered with dirt and rock If the present prospects are day indications of what the ledge will be when opened Owyhee has at least two Poorman ledges, and five more patient, faithful prospectors richly rewarded —*Owyhee Avalanche*

WHISKY GULCH —D C Coleman & Co, practical miners, have taken a conditional lease of this mine until next June, and intend to work it steadily all winter They took possession and commenced work on last Monday Have already got out some good ore They will work it in a systematic manner, being fully satisfied that they will be able to do so and realize a handsome profit at the same time Messrs Hanna & Story, principal owners, are men of limited means but intend to have the ledge thoroughly developed, and have given the lease with no other object

The Mineral Mill crushed, last week, something over twelve tons of first and second class Whisky Gulch ore, of about equal parts mixed together, and yielded $79 06 per ton At the rate first class ore would yield over $100 We consider these good results from any ledge, and are confident that when fairly tested to any considerable depth it will be an A No 1 paying mine —*Owyhee Avalanche*

FLINT DISTRICT —There is excellent news from Flint A note addressed to us reads "Everything is lovely and the goose hangs high Black's machinery is now all on the ground This boys had a good time the day it got in" This being the first quartz machinery ever introduced in that district, the occasion was celebrated by firing salutes, short remarks and several drinks This machinery is complete for a five stamp mill, and will be put in place and running order as soon as possible

We are informed that Messrs Zenas Wheeler W L Burnham and Smith—the latter a Boise county miner—will erect a ten stamp mill in Flint before winter sets in The machinery is partly in Boise county and will be forwarded at once The Cosmos Company, or members of it will put a mill in Flint early next summer, and will probably construct an extensive roasting furnace Other parties are very much pleased with the prospects of that district and there is little doubt of its being a prosperous place, yielding tons of bucks in 1867 —*Owyhee Avalanche*

Batchelder christened Nathaniel is the subject of this "piece" He arrived in Owyhee last Spring Reported himself from Virginia Nevada Put on considerable style, drank much whisky succeeded in getting a position as Superintendent of a mine and convincing his employers that he was a scoundrel offered to have himself out to kill a well known citizen for a price, tried to defraud everybody who would credit him and did succeed with many—among the latter was ourselves It is useless to detail the acts and attempted deeds of this villain Where he has gone to we can t say—don't even know that he has left here but our exchanges can do their readers no greater service than to copy this article We have abundant proof of what we assert Batchelder is about six feet tall heavy set, ruddy face, black whiskers and hair and is very pompous in his manner —*Owyhee Avalanche*

SOUTHWEST MISSOURI —A movement is making at Springfield, Missouri, to cause to be printed and circulated gratuitously throughout the Eastern States a pamphlet descriptive of the attractions and advantages offered by Southwest Missouri to the emigrant In this work and is needed and the co operation of all who are interested should be given with promptness and liberality Seventy five per cent of the lands of Southwest Missouri are yet uncultivated while scarcely another section of the globe presents richer inducements to labor and capital
